

WILLETT & PATTESON'S

Amazing Portable

CAMERA OBSCURA

This year has seen Willett and Patteson's Camera Obscura tour all over England, feature on Channel 4's Time Team: The Big Royal Dig and produce installations as far afield as Japan and Australia.

A technology popular one hundred years ago still proves to be a magical experience for people of all ages.

The portable booth is a marvellous attraction at all outdoor events.
